

SOUTHWEST HEALTHCARE SERVICES

Complete Healthcare Today, For a Better Tomorrow

To protect the health and safety of our community, Southwest Healthcare Services has been limiting the number of visitors to the hospital in recent weeks, while implementing enhanced screening efforts of all visitors.

After careful consideration of the welfare of our patients, their families, and our staff and the threat of the rising spread of COVID-19, Southwest Healthcare Services has updated its visitor restriction policy effective April 9, 2020:

- **One visitor per patient per day, immediate family only. NO visitors under the age of 16**
- **Family members will be screened about recent travel and signs of illness, including a temperature check.**
 - Any persons with symptoms will not be permitted to visit.*
 - Any persons with recent travel from a location deemed by the North Dakota Department of Health to require quarantine will not be permitted to visit.*
- **The hospital reserves the right to restrict all visitors in the event a patient requires strict isolation measures.**

We would like to remind the public that if you have COVID-19 symptoms and are would like to visit a healthcare provider, please call first at 701-523-5555.

For questions related to COVID-19, the public can call the North Dakota Department of Health hotline at 7-866-207-2880 from 7 a.m. to 7 p.m., Monday through Friday or contact the local health unit at 701-523-3144.

Southwest Healthcare Services will continue to monitor the situation and adjust accordingly. While we realize these temporary steps may cause inconvenience to visitors, we appreciate your understanding and support as we take increased measures to ensure the safety of our patients and our staff.

Thank you.
